

# HEALTH AND SAFETY MEASURES

To ensure the safety of our guests and team members in the Discovery Centre at Legacy on Dunbar, we will be implementing the following measures below. If you have any questions, please speak with one of our team representatives.

## 1. PRACTICE SAFE PHYSICAL DISTANCING

Make sure a distance of 2 meters (6 feet) is maintained between you and our team member(s) at all times.

## 2. WASH AND SANITIZE YOUR HANDS

Be sure to wash your hands for at least 20 seconds. Hand sanitizer is available at reception to all guests entering the Discovery Centre.

## 3. PERSONAL PROTECTIVE EQUIPMENT

We are requiring all guests to wear a protective mask during the appointment. If you do not have a protective mask, we are happy to provide you with one.

## 4. CHECKING BODY TEMPERATURE

A contactless infrared thermometer may be used to measure the temperature of guests that enter the Discovery Centre.

## 5. TOUCHLESS APPOINTMENT

Our team member will guide you through the Discovery Centre and will operate all touchscreen experience, as well as cabinets and appliances in the display suite.

## 6. CLEANING PROTOCOL

Before you arrive for your appointment, our team members will clean and sanitize all surfaces that may come in contact with you. Rest assured, you're in good (clean) hands.

The safety of our guests and team members are paramount to us. If you are sick or have travelled outside of Canada in the last 14 days, please stay home.
